

ZISW/B480DX

GE Monogram® 48" Built-In Side-by-Side Refrigerator with Dispenser and Water Filter

Dimensions and Installation Information (in inches)

* Shipping height. The refrigerator can be adjusted to fit into a cutout that is 83-1/2" min. to 84-1/2" max. height. Note that the top case trim at the front is 1/2" higher and will overlap upper cabinetry or soffit. Use leveling legs and wheels for a maximum 1" height adjustment.

Product Clearances

These refrigerators are equipped with a 2 position door stop. The factory set 130° door swing can be adjusted to 90° if clearance to adjacent cabinets or walls is restricted.

Allow minimum clearances for freezer door and fresh food door for a full 130° door swing and to allow for pan removal.

4" minimum clearance is required when door swing is adjusted to 90°. If the 90° door stop position is used, pan access is maintained, but pan removal is restricted.

Installation Information: Before installing, consult installation instructions packed with product, or online at Monogram.com, for current dimensional data.

For answers to your Monogram®, GE Profile™ or GE® appliance questions, visit our website at ge.com or call GE Answer Center® service, 800.626.2000.

The Installation Space

Water and electrical locations

The opening must be prepared with the electrical and water supply located as shown.

The cutout depth must be 24"

The refrigerator will project forward, slightly beyond adjacent cabinetry, depending on your installation.

The cutout depth beneath a soffit:

When installed beneath a soffit, the soffit cannot exceed the 24" installation depth shown. The top case trim overlaps the bottom of the soffit.

Additional Specifications

- A 115 volt 60Hz., 15 or 20 amp power supply is required. An individual properly grounded branch circuit or circuit breaker is recommended. Install a properly grounded 3-prong electrical receptacle recessed into the back wall. Electrical must be located on rear wall as shown.

Note: GFI (ground fault interrupter) is not recommended.

- Water line can enter the opening through the floor or back wall. The water line should be 1/4" O.D. copper tubing or GE SmartConnect™ kit between the cold water line and water connection location, long enough to extend to the front of the refrigerator. Installation of an easily accessible shut off valve in the water line is recommended.

Dimensions and Installation Information (in inches)

Customization Basics: Framed or Overlay Panels, Custom Handles and Accessory Kits

Trimmed Refrigerators

ZIS420NXSS, ZISW420DXSS, ZISB420DXSS

Trimmed refrigerators are designed to be customized with decorative panels. Field-installed custom door and grille panels are required.

Framed Panels

You may install 1/4"-thick custom panels from your cabinet manufacturer. The decorative panels slide into the factory-installed trim. Or, order black, white and stainless steel accessory panels from your Monogram dealer.

Framed Panel

Standard supplied handles shown in 1/4" panel position.

Overlay Panels

You may also choose to install custom overlay panels from your cabinet manufacturer. This design provides a seamless appearance which integrates smoothly with surrounding cabinetry.

Standard supplied handles shown in 3/4" overlay panel position.

For answers to your Monogram®, GE Profile™ or GE® appliance questions, visit our website at ge.com or call GE Answer Center® service, 800.626.2000.

Door Handles

The supplied handles can be adjusted to accommodate both framed or overlay panels. Custom handles of your choice, supplied by your cabinet maker, can also be installed. If desired, you may order ZKHSS2 Monogram stainless steel tubular handle kit for overlay panels.

Side Panels

Side panels must be used whenever the sides of the refrigerator will be exposed. The 1/4" side panels will slip into the side case trim. Secure the panels to the refrigerator with stick-on hook and loop fastener strips. Order the side panels from the cabinet manufacturer.

- Cut a notch in the top front corner as shown to allow clearance for corner keys in the front side trim.

*Depending on installation height.

Optional Accessory Kit

ZKHSS2: Tubular Stainless Steel handles designed to fit 3/4" overlay panels.

Accessory Panels

White or black acrylic and stainless steel accessory panels are available from your Monogram supplier. Panels are cut to size and ready to install. These panel kits must be ordered separately.

ZISW/B480DX

GE Monogram® 48" Built-In Side-by-Side Refrigerator with Dispenser and Water Filter

Dimensions and Installation Information (in inches)

3/4" Overlay Panel Dimensions

For a more custom appearance, overlay panels may be installed on trimmed models. The overlay panel must be secured to a 1/4"-thick backer panel which slides into the trim. A spacer panel 0.10" thick must be placed between the overlay and backer panels.

$$.250" + .10" + .750" = 1.100" \text{ Total Panel Thickness}$$

Center each panel over the other. Assemble the panels with glue and screws. Screws must be countersunk into the backer panel.

NOTE: Left-to-right offset is not always equal to top-to-bottom offset.

Raised Overlay Panel Design On Dispenser Models

When a raised panel design is to be used, a custom wide middle rail is required to accept the dispenser trim.

- The middle rail must be wide enough to allow for the dispenser trim to overlap the opening.
- The middle rail must be 1.100" total thickness to accept the dispenser trim.

*Cut the dispenser opening after the backer, spacer and overlay panels have been assembled.

Important Note: Maximum total panel weight:

- Fresh food door panel – 75 lbs.
- Freezer door panel – 53 lbs.
- Grille panel – 18 lbs.

GE Monogram® 48" Built-In Side-by-Side Refrigerator with Dispenser and Water Filter

Dimensions and Installation Information (in inches)

1/4" Framed Panel Dimensions

If you choose to install framed panels, they must be cut to the dimensions shown. The panels will slide into the frame on the door and grille.

If the custom panel is less than 1/4" thick, and it fits loosely in the door frame, it can be backed up with a piece of filler material or foam tape to improve the fit.

Important Note:

Maximum total panel weight:

- Fresh food door panel – 75 lbs.
- Freezer door panel – 53 lbs.
- Grille panel – 18 lbs.

Dispenser Cutout

For answers to your Monogram®, GE Profile™ or GE® appliance questions, visit our website at ge.com or call GE Answer Center® service, 800.626.2000.

Dispenser Models

These refrigerators are supplied with two dispenser trims, one for framed panels and one for overlay panels.

1/4" Framed Panel

The framed panel must be 1/4" nominal thickness to fit the dispenser trim.

- The dispenser trim fits over the custom panel and snaps into the freezer door.
- If the panel is less than 0.250" thick, a noticeable gap may be created around the dispenser trim. Foam tape may be applied on the door to improve the fit.
- If the panel is more than 0.250" thick, the dispenser trim cannot be secured to the door.

3/4" Overlay Panels

The overlay dispenser trim is designed to fit a total panel thickness of 1.100".

- If the panel is less than 1.100" thick, a noticeable gap may be created around the dispenser trim.
- If the panel is more than 1.100" thick, the dispenser trim cannot be secured to the door.
- The overlay panel must be constructed according to the specifications shown to achieve the correct total thickness.
- Alternative panel construction methods such as securing a 3/4" panel to a 1/4" backer panel cannot be used. Another method, routing a 3/4"-thick panel on all sides, cannot be used. These methods will not result in the required 1.100" panel thickness.
- When a raised panel design is to be used, a custom middle rail is required.

IMPORTANT NOTE – FOR DISPENSER MODELS

Dispenser models are supplied with two dispenser trims, one to fit framed panels and one for overlay panels. **Dispenser trim fit to the custom panel depends on correct panel thickness.** Framed panels must be 1/4" nominal. Overlay panels should be constructed as shown to accomplish a total 1.100" thickness.

ZISW/B480DX

GE Monogram® 48" Built-In Side-by-Side Refrigerator with Dispenser and Water Filter

Features and Benefits

- Halogen Light Columns - Located in the freezer and fresh food compartments, extend the full length of the interior compartments providing brilliant, all-level illumination
- LED Lighting - Located at the top of the fresh food compartment, and inside the high-humidity and climate-control drawers, illuminates contents without compromising space
- Advanced Temperature Management System with Multi-Shelf Air Tower - Provides even distribution of air throughout the refrigerator
- Climate-Control Drawer - Allows you to express-chill beverages, express-thaw meats and select specific temperatures for perishable foods
- Dispenser with Proximity Sensor - Designed to accommodate glassware of all sizes, from pitchers to tumblers; control graphics light up as you approach and automatically switch off when you walk away
- Humidity-Controlled Vegetable Drawer - Helps preserve the freshness of foods
- Gallon-Size Door Bin - Holds milk containers, two-liter bottles and pitchers
- Adjustable Spillproof Glass Shelves - Easily accommodate party trays and platters
- Drop-Down Shelf - Provides additional space for a casserole dish or pizza box
- Adjustable Deli Drawer on Full-Extension Slides - Keeps meats, cheeses and other everyday foods within easy reach
- Dairy Bin with Center Divider - Has a unique magnetic seal that locks in freshness
- Model ZISW480DX - White dispenser
- Model ZISB428DX - Black dispenser (shown)
